

THE MEN'S TABLE
SUPPORTING MEN

Our Stories

Ben Hughes has educated and entertained tens of thousands of people in his nearly 30 years in the wine industry.

Ben initiated the first Men's Table in 2011. He was diagnosed with adult ADHD late in life which enabled him to make sense of what had gone before; a thousand great projects with no completion. In 2019 he co-founded The Men's Table organisation.

David Pointon owned and ran a management consultancy for 25 years, facilitating organisational change projects to large corporates, NGO's and Govt in education, banking & finance, insurance, pharmaceutical and many other sectors.

Growing up, he felt unable to express himself openly with other men. Sitting at a Men's Table for 9 years has transformed the way he relates with other men. In 2019 he co-founded The Men's Table organisation.

— Webinars and Speaking —

The co-founders of The Men's Table, Ben and David, are now available to deliver webinars and keynote presentations to your organisation and audience.

The first Men's Table was established in 2011. Since 2019 this simple, accessible and proven model has been taken to the Australian community with 20 Tables now established. The Men's Table is a fast growing registered charity supporting preventative men's mental health.

In partnership with The National Mental Health Commission, we investigated the evidence behind men's social isolation and loneliness, lack of meaningful friendships, help seeking reticence and the stigma of outdated male norms and how these issues can be addressed.

Ben and David bring a fresh, energetic, and real world storytelling approach to the issues and opportunities associated with men's mental health and community building. Women strongly engage and relate with their stories and are big supporters of men having safe spaces to share feelings and connect authentically with other men.

References

“ The Men’s Table delivered a webinar during Men’s Health week to NSW Ambulance staff. It was a great way to include employees spread across NSW and we have received numerous positive comments on the webinar and a number of staff were keen to get involved with a Table. It was a pleasure to work with Ben and David and I have no hesitation in recommending The Men’s Table to any organisation looking to improve the support offerings to their employees. ”

NSW Ambulance**

“ I had the pleasure of seeing David Pointon and Ben Hughes speak with passion and knowledge of men’s mental health at the WayAhead Workplaces Member Forum in late 2019. They fully engaged their corporate audience of 80 people, sharing their own personal experiences openly and effectively with an audience of strangers. You could have heard a pin drop during their presentation and they left the audience delighted and wanting more. ”
